

—PHARMACIE DU PORT · DEDICATED YACHTING SERVICE

## The pharmacy that *sets sail* with your crew

We put our pharmacy and our pharmaceutical expertise at the service of yachts and superyachts: onboard medical kit composition, medical equipment, oxygen, and a team reachable wherever your port of call may be.

### YOUR CALL AT OUR PHARMACY

- 1. Onboard pharmacy audit**  
Full inventory and regulatory compliance check.
- 2. Supply**  
Medicines and equipment delivered straight to the dock or at any port of call.
- 3. Re-certification & labelling**  
Expiry dates, English-language leaflets, flag-state compliance.
- 4. Ongoing support**  
A dedicated pharmacist who supports the crew throughout the season.

—OUR SERVICES

## The whole pharmacy, designed for life on board

From regulatory pharmacy outfitting to medical support at sea, our team looks after crews and ship's officers with the same care you'd find at our counter.

### Inventory management

A simple app to track, restock and anticipate the needs of your onboard pharmacy.

### Medicines

A full range of medicines meeting international standards, selected with the same care as in our pharmacy.

### **Medical equipment**

First-aid and everyday care equipment, checked and ready to use at every port of call.

### **Re-certification**

Expiry date checks and timely renewal of the onboard pharmacy.

### **Medical oxygen**

Supply, pressure checks, refilling and servicing of medical oxygen cylinders.

### **Calibration**

Periodic calibration of medical measuring devices to ensure reliable readings on board.

### **Alcohol and drug testing**

Random testing carried out on board, in line with maritime regulations.

### **International delivery**

Reliable logistics to supply you at the port of your choice, anywhere in the world.

### **Regulatory labelling**

English-language leaflets and labelling that meet your vessel's flag-state requirements.

### **Onboard water analysis**

Testing and monitoring of onboard drinking water quality, with guidance tailored to maritime standards.

## Personalised advice

A French- and English-speaking team available to answer all your health questions on board.

## Dedicated pharmacist

A single point of contact who follows your vessel from one port of call to the next

## 100%

Compliant with international maritime health regulations

## FR / EN

Bilingual support for international crews

### —OUR COMMITMENT

## The rigour of a pharmacy, the agility of the maritime world

Just as at the Pharmacie du Port counter, every piece of advice relies on careful checking: prescriptions, expiry dates, compatibilities. We bring that same rigour to yachts and their crews, in France and at your ports of call abroad.

Our role doesn't stop at dispensing: prevention, screening, listening and follow-up are all part of the support we offer sailors, just as we do for our patients in Nice.

*"We wanted a yacht's crew to receive the same attentive care as a patient walking through our pharmacy's door."*

THE PHARMACIE DU PORT TEAM — YACHTING DIVISION

### PHARMACIE DU PORT — YACHTING

17 rue Cassini, 06300 Nice, France
